

Dear Loved Ones,

Greeting and peace of our Lord be with each one of you. The week of April 12 to 16 was very hard on the staff of our eye clinic. They are still talking about the case.

Why hard?

Emotionally they had to deal with a déjà vu. And that déjà vu is not all that pleasant. This is the case of this young man Mr. Elima Osias, 51 years of age from L'Acul du Nord. Elima came to the eye clinic in 2014 when his eye trouble started. The doctor told him to have a scan of his eye. Elima disappeared only to reappear now with a much deeper issue.

The doctor wanted to do a scan of the eye/ brain. Let me say that the scan of the entire head. This scan is only done in Port-au-Prince, the capital city, or in the Dominican Republic.

A couple of questions haunt me as you read this journal.

Why Elima has not been able to have the scan the doctor told him in 2014?

-Did not he trust the doctor?

-Did not he have the money?

-Did not he know that the situation was serious enough to pay attention to it?

-And now what?

I am inclined to believe that Elima did not have the money then for the scan and does not have the money now. If the cancer has far gone, the outcome is not promising.

The staff still has the sad memory of the little Berlinda Lebrun who, exactly came with the same condition and we buried her on April 8, 2020.

Thank you for walking this difficult and sometimes emotionally tiring path with the staff of the eye clinic in Cap-Haitian.

Yours in Haiti,

Nzunga & Kihomi.

Dear Friends,

Despite the many tragic situations in Haiti, the eye clinic staff cares. Having to see someone that may have been helped if he had followed the doctors' instructions but is in even worse off now is hard to handle. Of course, the lack of money plays a big role.

Please keep Elima and the eye clinic staff in your prayers.

Blessings to all,

Dennis Shewell and the entire MPY team.
