Trust you had a Blessed Thanksgiving!!

"Do not be anxious about anything, but in everything, by prayer and petition, with **thanksgiving**, present your requests to God." Philippians 4:6

We praise the Lord that we have been able to start up the kid's club with the adolescents in small groups of 15. Rebeca has been leading this group with the help of Marlen. The sharing has been priceless as the kids have missed being together and interacting with each other.

We have also started up the elderly group as many of the adults have expressed feelings of isolation, loneliness and missing the group interaction of activities and prayer. In September, we celebrated our independence and some of the ladies wore their typical outfits to join in the fun. Again, we are only working with small groups due to the Ministry of Health's regulations for the COVID pandemic.

At our thanksgiving lunch for the staff, we celebrated Yami's working with CEDCAS for 20 years. Rebeca presented a video of pictures through the years and Aziel and Dr. Carla presented her with a plaque expressing our appreciation. She was so surprised by the whole activity. Your gifts and prayers have made our ministry possible. We would like to ask you to remember us with your year end giving.

[DONATE](#)

On the 22 of November, we had the privilege of celebrating Camila's third birthday. She was so excited that she began singing Happy Birthday to herself in Spanish days before. She even learned how to hold up just 3 little fingers.

Rebeca and Chelo took her to a farm where they had all kinds of animals. She loved it. Highlights were feeding a calf a bottle of milk and getting nipped in the butt by a duck. She sings so many songs and one of

them which she sung for days was "Oh McDonald had a farm". Guess who got a balancing bike with a dinosaur helmet? She has been doing really well with it as they take her to a park nearby to ride.
